

GEMINITM Pro

The enhanced GEMINI[®] version for jewelry retailers, wholesalers, and light manufacturers

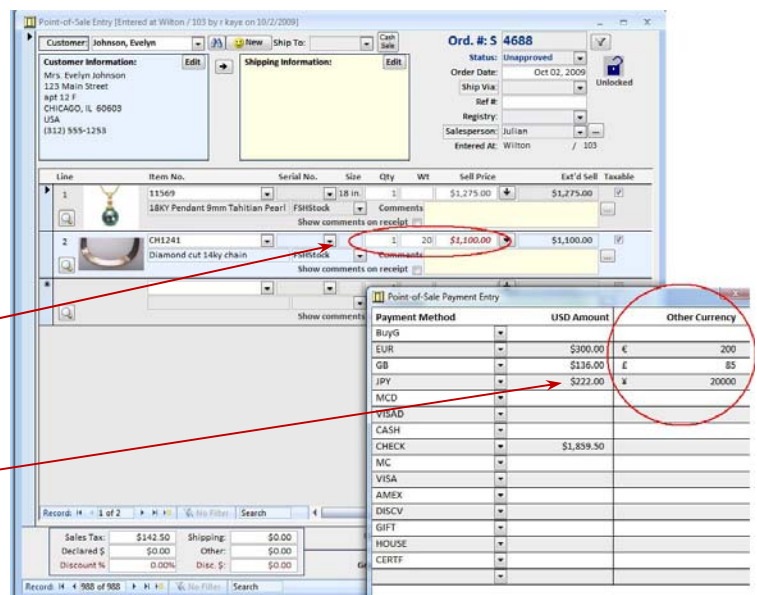

GEMINI[®] Pro extends the capabilities of GEMINI[®] even further....

GEMINI[®] is a complete jewelry management system for jewelers with one location or many. GEMINI[®] Pro offers all the features of GEMINI[®] plus additional enhancements for jewelry businesses that also need make-to-stock, enhanced diamond price management, sell by weight, multi-currency, loyalty programs, and time clock functionality.

The GEMINI[®] special order screen allows you to create customer orders for repairs and special orders, set up estimated labor and materials, print job bags, control component inventory via issues and de-issues to orders. Users record and control job costs by entering actual labor performed. GEMINI[®] analyzes estimated vs. actual labor and materials for you.

GEMINI[®] Pro is enhanced to allow you to:

- ◆ Sell to customers by gram, pennyweight or carat weight.
- ◆ Create make-to-stock orders (without a customer or price).
- ◆ Accept payment in multiple currencies including mixed currencies on a sale

GEMINI[®] Pro Point of Sale screen showing sell by weight and multi-currency

GEMINI[®] Pro includes enhanced diamond price management that can import 'rap' formatted diamond tables.

You can compare and update your prices based on your criteria.

Choose GEMINI[®] Pro if you are a jewelry business that:

- ◆ Has a workshop or uses contractors that make jewelry for your own stock.
- ◆ Sells jewelry or loose stones by weight (gram, pennyweight or carat).
- ◆ Offers a Loyalty Program with points awarded for sales to redeem against future purchases.
- ◆ Needs a time clock function for hourly employees.
- ◆ Accepts payments in multiple currencies.
- ◆ Maintains diamond prices related to 'Rap' and wants to be able to re-price diamonds at any time as a percentage of 'Rap'.

GEMINI® Pro offers these additional features to standard GEMINI®
(see our GEMINI® literature for full details of features found in GEMINI®)

Make-to-Stock Orders

- ◆ The special order screen is enhanced to include 'make-to-stock' capability.
- ◆ Completed orders are automatically received to stock.
- ◆ Print make-to-stock job bags complete with barcodes, images, bill of materials and suggested labor routing.
- ◆ Track both estimated and actual labor and materials.

Sell by Weight

- ◆ Set up any item as a 'sell by weight' item.
- ◆ At the Point of Sale, you are required to enter the actual weight of the item or capture the weight directly from a scale with a direct interface to many scales¹.

Multi-Currency

- ◆ Accept payment in any currency or mix of currencies.
- ◆ Enter daily conversion rates and GEMINI® Pro maintains historical conversion rates.
- ◆ GEMINI® Pro saves conversion rates with each transaction.

Loyalty Program

- ◆ Include/exclude certain items from earning points.
- ◆ Set customers up with/without an expiration date.
- ◆ Add/delete points manually. This is great for a sign-up bonus or special accommodations.
- ◆ Determine the exchange rate for points redemption, such as for special promotions.

Time Clock

- ◆ Time clock function allows your employees to clock in and out at any time.
- ◆ Report on employee hours for any time period.
- ◆ Administrators can make corrections with full logging of any changes made.

Diamond Price File Management

- ◆ **GEMINI®** has a complete diamond master system. **GEMINI® Pro** offers the ability to import and update diamond prices globally. Subscribers to Rapaport can import diamond prices as often as desired and compare them to current diamond prices.
- ◆ Update all or any of your diamond prices with discounts you select by size, shape, color, quality.

MPI Systems, Inc. designs state-of-the-art software systems exclusively for the jewelry industry.

MPI Software optimize jewelry operations around the world - manufacturing, wholesale and retail.

All our products are tested to work with Microsoft® SQL Server 2005 or 2008 and the latest Microsoft operating systems and are 100% Microsoft® Windows.

¹Some scales may require 3rd party software to interface to Windows; available at a nominal extra cost .
