GEMINI<sup>®</sup> Pro Version Adds Enhancements to Manage  
Sales • Manufacturing • Wholesale • Diamonds

MPI Systems, Inc.

GEMINI<sup>®</sup> is the COMPLETE JEWELRY BUSINESS MANAGEMENT SOFTWARE SYSTEM for ONE or HUNDREDS of LOCATIONS using ROBUST MICROSOFT<sup>®</sup> SQL SERVER TECHNOLOGY.

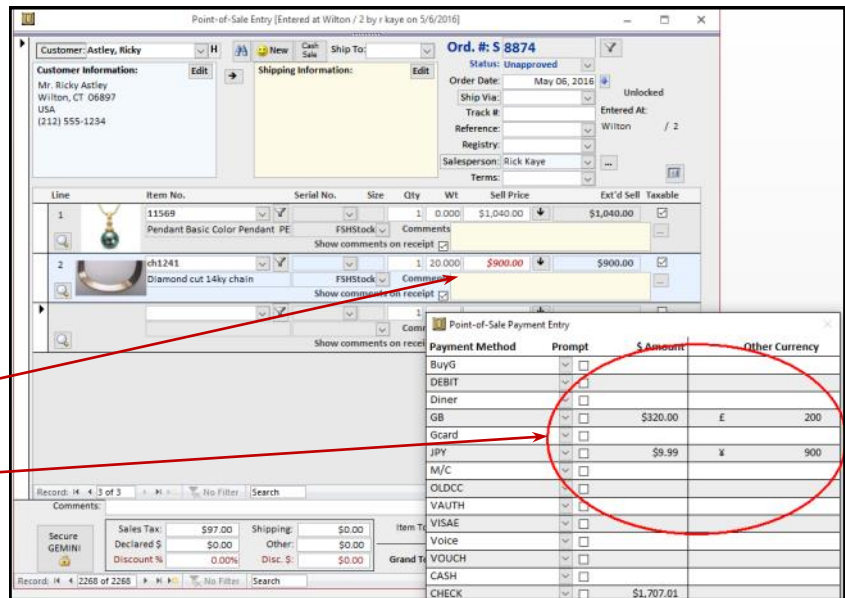

The Pro version of GEMINI<sup>®</sup> adds the following features:

- Make-to-Stock Manufacturing with Component Requirements Planning
- Enhanced Diamond Price & Parcel Management
- Sell by Weight & Multi-Currency POS

The GEMINI<sup>®</sup> special order screen allows you to create customer orders for repairs and special orders, set up estimated labor and materials, print job bags, control component inventory via issues and de-issues to orders. Users record and control job costs by entering actual labor performed. GEMINI<sup>®</sup> analyzes estimated vs. actual labor, and materials for you.

GEMINI<sup>®</sup> Pro is enhanced to also enable you to:

- ◆ Sell to customers by quantity, gram, pennyweight or carat weight
- ◆ Accept payments in multiple currencies including mixed currencies on a sale

GEMINI<sup>®</sup> Pro includes enhanced diamond price management that can import 'Rap' formatted diamond tables from your Rap subscription.

You can compare and update your prices based on your criteria; individually or globally.

Choose GEMINI<sup>®</sup> Pro if you are a jewelry business that:

- Manufactures jewelry for your own stock inventory either in-house or contracted (Not just special orders)
- Components Required Reporting to manage components for purchasing special and stock orders
- Accepts payments in multiple currencies
- Sells jewelry or loose stones by weight (gram, pennyweight or carat) as well as purchasing by weight
- Maintains diamond prices using 'Rap.' Wants to re-price diamonds at any time as a percentage of 'Rap,' either individually or globally (Rap subscription required)
- Needs to inspect and accept or return diamond parcels
- Allocate accepted parcels to specific diamond items with complete cost allocation control
- Wants to integrate with ShopControlPro<sup>®</sup> by MPI
